Junior Clinic Descriptions

Future Stars: Ages 5-10

Players will learn foundational tennis strokes through fun filled activities from enthusiastic instructors who are well versed in the modern game of tennis. Learning tennis specifics such as coordination, balance and hand eye coordination will establish correct patterns that will be helpful in tennis but also applicable to other sports.

Emerging Strikers: Ages 9-14

Players will be instructed in all strokes using a specific “tennis vocabulary” designed to help make advanced tennis strokes easy to learn. Players will learn scoring and basic strategies of play so they can move from hitting a tennis ball to game play. This is an ideal class for those interested in playing junior high school tennis and/or USTA Novice Tournaments.

Competitive Development

Advanced middle school players and intermediate high school players will learn the skills and tactical knowledge they need to become successful varsity high school players. Drills, game scenarios and specific instruction suited to individual styles will be the basis of these energetic and focused sessions. A skills and abilities test is given to each player for participation to this clinic.

Academy Training

Players in this level are committed, self-motivated and actively competing in tournaments and match play. High intensity drills will improve match play strategy, mental skills, footwork, shot selection, fitness and overall competitiveness. All players must be pre-approved by Director of Tennis Jeremiah Walsh for participation in this clinic.
